# ABDELWAHID EL-FAHMY

Software Engineering student specializing in **FullStack** development **Java** and **React**, seeking a **PFE** internship starting in February 2026.

## TECHNICAL SKILLS

- PROGRAMMING LANGUAGES**  
Java, Javascript, TypeScript, C#, Python, SQL, PLSQL.
- FRAMEWORKS:**  
Spring, ExpressJS, ReactJs, Redux, JEE, TailwindCSS.
- TOOLS & TECHNOLOGIES :**  
Git, Docker, JUnit, Rest, GraphQL, XML, Vite
- DATABASES :**  
Oracle, MySQL, SqlServer
- MODELING :**  
UML, Astah,

## SOFT SKILLS

- Continuous Learning.
- Agile Collaboration
- Team Spirit

## LINGUISTIC SKILLS:

- English:** Intermediate (B1)
- French:** Intermediate (B2)
- Arabic:** Native

## CERTIFICATS

- OCI DevOps Professional
- OCI Foundations Associate
- Fundamentals of Java Programming (Coursera)

## ACTIVITIES:

Member of the "Cycle" committee :  
Collaborated with other students to design and develop real-world projects.

## HOBBIES & INTERESTS

- Competitive Programming
- Contribution open source
- Chess

## PROFILE

Ready to enter the professional world, I am eager to apply my full-stack development skills to innovative projects. Passionate about the DevOps field, I aim to contribute to a dynamic team by optimizing development and deployment processes.

## ACADEMIC BACKGROUND

<b>Engineering Cycle in Computer Engineering</b>	<b>ENSA Agadir</b>
<b>Integrated Preparatory Classes</b>	<b>2023 - present</b>
	<b>2021 - 2023</b>

## PROFESSIONAL EXPERIENCE

<b>End-of-Year Internship - Omni Networks</b>	<b>Feb - May 2025</b>
<b>Intern Management Platform</b>	<b>Agadir Morocco</b>
<ul style="list-style-type: none"><li>Design and development of secure REST APIs with JWT authentication.</li><li>Application of software engineering principles (DI, IoC, OCP, AOP, OOP) to ensure code quality.</li><li>Development of responsive interfaces using React, Vite, Redux, and Tailwind.</li><li>Collaboration in an Agile environment and use of Git/GitHub for version control.</li></ul>	
<b>Introductory Internship - F4T SARL</b>	<b>Jul - Aug 2024</b>
<b>E-learning Platform</b>	<b>Azilal, Morocco</b>
<ul style="list-style-type: none"><li>Developed a secure REST API using Express.js.</li><li>Followed the MVC architecture for better code separation.</li><li>Designed a MySQL database ensuring data consistency and integrity.</li><li>Created reusable components for a modern and reliable user interface using React.js.</li></ul>	

## ACADEMIC PROJECTS

### Agile Project Management REST API

- Developed web services for managing sprints, backlogs, and user stories.
- Wrote unit and integration tests with JUnit and Mockito to ensure application reliability and quality.
- Utilized Hibernate ORM for efficient database management.
- Developed a centralized exception handling mechanism.
- Comprehensive endpoint documentation using Swagger.
- Utilized DTO Objects to ensure clean and secure data flow between layers.

### PharmacieOnline - Patient Prescription Management

- Developed a full-stack application (Java EE / EJB and React) for prescription management.
- Implemented an interactive map with Leaflet to locate pharmacies.
- Designed business services based on Stateless EJB Beans.
